

New Zealand Mosque False Flag Exposed, Reasons for the Hoax Revealed

By **SGT** - March 23, 2019

from *State Of The Nation*:

The Millennium Report

First some important history which offers an indisputable and crucial context.

*“Every American patriot only needs to consider the highly restrictive gun control laws that were enacted in Scotland after the Dunblane school shooting and in Australia immediately following the Port Arthur Massacre. The Dunblane mass shooting took place on 13 March **1996**; the Port Arthur massacre occurred from 28–29 April **1996**. It quickly became obvious to gun owners worldwide that these two efficacious psyops were staged within two months of each other with purposeful political design (à la **Operation Gladio C**) In both cases, draconian gun control legislation was passed that effectively stripped the citizenry of their right to possess firearms.”(Source: OPERATION GLADIO C: Government-Sponsored Domestic Terrorism Targets American Public Schools)*

Of course, here in the states, we first saw the Columbine High School ‘massacre’ which inaugurated the globalist-directed national drive to confiscate guns in America. Here’s a recent headline from a primary propaganda organ of the CIA’s *Mockingbird Media*— NPR — coyly extolling the virtues of America’s “Columbine moment”.

In 1999, Columbine Felt Like A Galvanizing Moment For Gun Control

Then there was the stunning ‘mass shooting’ at Virginia Tech. Again, NPR leads the charge for passing more restrictive gun control laws. See: [Va. Tech Shootings May Revive Gun-Control Debate](#)

Now fast forward to the BIG 3 — **Sandy Hook, Las Vegas and Parkland, Florida.**

Each of these three false flag hoaxes triggered serious gun control legislation, as well as predicated frivolous lawsuits that served to peripherally and/or incrementally restrict gun sales throughout the United States.

- The obvious Sandy Hook hoax staged at the closed elementary school in Newtown effectively locked down Connecticut where it concerns gun ownership. See [Sandy Hook Massacre: Gun Makers Lose Major Ruling Over Liability](#)
- The nation saw a flurry of laws against assault rifles after the ‘worst mass shooting’ in U.S. history staged at the now infamous Mandalay Bay. [Bump stocks were also been banned nationally as a direct result of that Las Vegas mass shooting.](#)
- The Florida legislature immediately passed gun control measures after the obvious shooting hoax was staged at Stoneman Douglas High School in Broward County.

What’s the point?

False Flag Mass Shooting Hoax at the Christchurch, New Zealand Mosque

Now that the *New World Order* globalist cabal has staged yet another false flag hoax in Christchurch, New Zealand, their highly controlled globalist stooge — Prime Minister Jacinda Ardern — has already issued an immediate gun ban as follows:

Prime Minister Jacinda Ardern says New Zealand is immediately banning assault rifles, high-capacity magazines and “military style semi-automatic rifles” like the weapons used in last Friday’s attacks on two Christchurch mosques.

Ardern announced the ban Thursday and said it would be followed by legislation to be introduced next month.

(Source: Now we see why the globalists staged the New Zealand false flag.)

Of course, these deliberately executed psyops always have multiple goals. For example:

“New Zealand Prime Minister Jacinda Ardern has called for a global fight to root out racist right-wing ideology

following last week's deadly attack on two mosques in Christchurch."

(Source: As usual, the British press exposes the real New Zealand shooting agenda.)

The best way for the government of New Zealand to take away the assault rifles so quickly was to stage a fake **"shock and awe"** event that was actually videoed to have maximum effect on the populace. However, the perps made a LOT of mistakes as usual. See: [5 Things About The Christchurch Shooting That Prove It Was A False Flag](#)

Now watch this new video analysis of what is turning out to be a ridiculous hoax.

HOAX ALERT: Why did the New Zealand shooter's windshield never break after firing shots? (Video)

Despite these unassailable refutations of the official narrative, as long as a vast majority of people on the planet believe what the mainstream media tells them about this and other fake mass shootings, it makes no difference whether it was totally real, or a complete hoax, or a hybrid of reality and hoax. All that matters is that a critical mass of folks demands new gun control laws for the globalist perpetrators to achieve it nefarious purposes.

Bottom Line

The bottom line where it concerns this mosque mass shooting in New Zealand is that the globalists carried it out to accomplish several objectives. Each one of those tyrannical objectives is critical to the formation of a totalitarian **One World Government**.

In order to understand how **Gladio**-style black operations like this significantly advance the NWO agenda, the following detailed exposé is highly recommended. This report contains specific premises and conclusions not found anywhere else on the Internet today. And it was written on the very day that the NZ mosque was supposedly attacked by the lone terrorist; that's how utterly transparent these never-ending false flag shootings have become.
